By BosaJohan/Johanoah

The videos in this document are new because the old videos were bad quality and I now understand the glitches better and can make a better video explaining them. And also I did ALL the non SMP glitches on 1.8. Some of the glitches don't work on 1.16. And I did ALL the SMP glitches on 1.16

Before you see some of the glitches, I want you to know that this glitch is CRUCIAL to some of the glitches because you need to do it before.
